VIEW Pro Encoders
E110, E120

VIEW Pro Decoders
D110, D210, D310

PANORAMA is a video composition and video-wall layout configuration software license for the VIEW Pro network media system. It allows you to easily combine multiple input sources for video wall or picture-within-picture screen viewing.

The PANORAMA software license includes an easy-to-use PC/MAC software application that allows the user to create a WYSIWYG (What-You-See-Is-What-You-Get) layout for multi-image composition, windowing, or video-wall layouts for the VIEW Pro system. It allows the user to save and reuse popular video layouts, and also support online & offline configuration modes.

PANORAMA provides professional AV consultants and integrators a new solution which will allow them to increase both sales and upsell opportunities by providing increased functionality and value to the end user.
